EXPLANATION: This app is a simple and fast drawing tool that allows you to generate artwork using particles. This particle art app was made to draw cool images by pressing the dashboard with a mouse on your PC. Basic Information Particle Art uses an image filter called "Artistic Particle" to generate a canvas of random particles. This is an image-based particle generator that creates photo-realistic particles. Create interesting images by simply dragging and dropping attractors over the canvas. Attractors give a photo-realistic texture to particles, and you can also use pre-made patterns. Use the slider to change the number of particles and the strength of each force, and choose color. You can also paint on the canvas by using a brush provided. To save the canvas, right-click anywhere on the screen and select Save in PNG file format. Features Use
